Dynamic Support Systems Catalogue

Recently at DSS we have been busy compiling a new product catalogue, an email version of which is included as an attachment to this email.

If you prefer, it can be downloaded from our website using this link <https://www.dynamicsupports.com/app/download/8293619/DSS+catalogue+2018-1.pdf>

Following discussions with some of our clients, in the coming months we'll be rolling out a selection program for our clients to use. I'll keep you updated with progress.

Should you require any further information, please feel free to contact me directly on the email address shown below.

Regards

Patrick Patrick.wildblood@dynamicsupports.com

ISO 9001 Accreditation

Recently, we've also engaged a Third Party certification body to review our Quality System Manuals and procedures. This is progressing in a positive manner and based on the initial audit, we are looking forward to issuing positive news in Decembers newsletter. Again, I'll keep you posted on this matter.
